### **DATACORP LAUNCHES WEBSITE TO HELP MONTANA BUSINESSES SAVE MONEY**

Billings, Montana, USA May 01, 2001 – Kurt Stickney and Mary Powell formerly of Writing By Design, has become a Montana owned business - DataCorp. DataCorp continues providing your custom database programming, individual and business computer training and website design for organizations of any size. The company website <http://www.dataman.cc> offers many time saving tips, in addition to, informational and money saving articles.

Kurt Stickney, a Programmer for over 15 years, creates [database software](#) designed especially for your business needs. His programs handle your information needs with unlimited capabilities; helping you to simplify, automate and track information for maximum efficiency. Mary Powell, [website designer](#) for four years, helps you to communicate your company image and mission via the World Wide Web with award winning website design.

A custom database will automate repetitive tasks. No need to enter information twice with a custom designed database. With DataCorp's intuitive designs, bad data entries can be eliminated, making your data more useful. Easy access to electronic data for single or multiple users saves time, money and paperwork. Custom Reports are the efficient tool for company decision makers to have current and correct company information.

DataCorp - taking your business to the head of the line, with effective information management. Call 406-670-9387, Billings, MT for your free initial consultation.
